Key words	Third Party Rights, Intellectual Property Rights, Copyright, Ownership, Commercial exploitation
Aims and objectives	<p>Intellectual Property Rights for the UK further and higher education community</p> <p>Intellectual Property Rights (IPR) and its relationship to JISC funded projects is one of the most heavily debated issues. A number of workshops have been undertaken to introduce the key issues. They include:</p> <ul style="list-style-type: none"> • Commercialisation of college and university intellectual property • Complying with licensing conditions • Copyright - economic and moral rights • Protecting your IPR – technical and legal options • Repurposing of content • Sustainable exit strategies <p>The goal of this surgery is to facilitate discussion between delegates and two of the leading experts in intellectual property rights within UK further and higher education. Collectively they will debate the issues, explore the current and future IPR landscape and bring their expertise to bear upon the topics raised by delegates. Delegates are invited to email their concerns and questions to Stuart Dempster (s.dempster@jisc.ac.uk) in advance to ensure that the surgery can be as productive as possible. Delegates will, of course, still be able to table questions to the experts at the event.</p>
Audience	Whilst, the surgery is primarily aimed at practitioners e.g. project managers, all are welcome to attend.
Style of session	Surgery.
