Title of Session	**Working Towards the Common Information Environment**
SESSION 30	
Presenter(s) and contact details	Paul Miller, Common Information Environment Director **P.Miller@jisc.ac.uk Tel No. 01482 466890**
Key words	Information, access, standards, policy, advocacy
Aims and objectives	The JISC is working with a number of organisations towards a shared understanding of the environment within which we wish to deliver content and services to our diverse user communities. This Common Information Environment (www.jisc.ac.uk/cie/) encompasses both technical standards such as those underpinning the JISC Information Environment, and the policy and procedural changes necessary to ensure that we are able to build services of broad and lasting benefit to the widest possible set of users. **Objectives, intended outcomes and activities for participants** • Provide an overview of the Common Information Environment vision, and progress to date • Explore the implications for JISC-funded projects and services.
Audience	Anyone who's interested to find out about the CIE, and play a part in shaping its future direction
Style of session	Presentation, followed by discussion.
