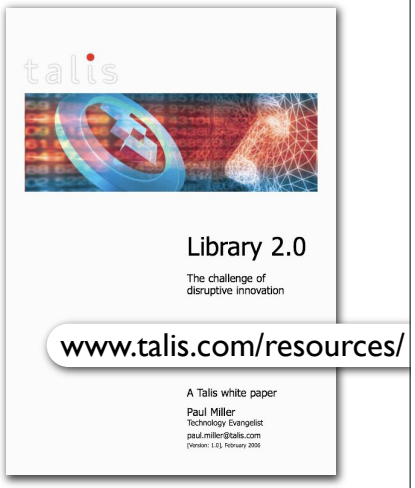
Library 2.0 - we can do it too/better (?)



Library 2.0

- open the library
- push the library everywhere
- engage with actual and potential user communities
- disaggregate library systems...
  - and bring them together
- shared innovation.

Doing it together...

A Platform approach

- low barrier to entry
  - based on standards and specifications
  - open to all, and vendor neutral
  - reduces cost and risk
- increases consistency, reach and predictability
- exposes libraries to the wider world

Mashing up the Library

- Celebrate innovation
- Showcase examples of reusing library data
- Encourage use of web services
  - ***like*** (but not necessarily) those from Talis
- First prize of £1,000

www.talis.com/tdn/competition/

Conclusion

- Update your entries in the Directory

directory.talis.com/

- Contribute your holdings to the Platform

www.talis.com/source/

- Look at ways to maximise your use of both

www.talis.com/tdn/platform/

- Think harder about integrating the library with the wider institution
  - institutional portal? VLE? VRE?
- Think ***much harder*** about pushing beyond the library
  - where are your users, what are they doing there, and how might you fit?
- Question everything

- Put all that thinking to good use, and enter the competition, or at least the conversation!
